

Governor Profile
Kayliegh Carter
Parent Member

In my career, I have been highly geared towards supporting people, and helping those around me. This has involved me working in Africa supporting disadvantaged communities, working in a secondary school with students with mental health concerns and developing a strong People Management career.

I've used my skills to support staff, bridging the gap between employer and employee and creating environments that focus on wellbeing. By becoming a member of the local governing committee, I hope to be able to do the same. I wish to support staff and parents in continuing to make the school an amazing place to learn, develop and work.
